**Date:** Thursday, January 19, 2012 9:34:54 AM

---

Greetings, All,  
Here is information related to Tuesday's offsite soil sampling discussion and a change in the meeting time at Koppers front gate to finalize selected sample locations. The meeting for stakeholders to review the final sample locations will be at 10 AM on Tuesday, January 24, 2012 at the former Koppers facility main entrance. Please plan to attend if your schedule will allow you to do so.

Thanks,

Scott Miller

Subject: Clarifications to Off-Site Soil Sampling Plan

Dear Scott,

Based on discussions during the stakeholder conference call this morning, I would like to clarify some points on the Additional Off-Site Soil Sampling that was emailed to you January 13, 2012.

- Access has been denied to parcel # 8310 to collect proposed sample SS285. Contingent sample SS287 has been identified to be collected in place of SS285. The base map used for Figure 3, Additional Proposed Sampling Locations: Dioxins/Furans, has not been updated to show the most recent property boundaries and thus SS287 appears to be on the same property as SS285, parcel # 8310. However, SS287 actually lies on parcel # 8303, for which there is a signed property access agreement.
- The International Brotherhood of Electrical Workers (IBEW) has denied access to parcel # 8314 to collect sample SS286. As stated in the revised sampling plan, contingent sample SS288 has been identified to be collected in place of SS286. SS288 is located on parcel # 8590-11 Lot 4, for which there is a signed property access agreement.
- Sample locations SS358 and SS359, located to the northeast and north of the Site, respectively, were erroneously not mentioned in the revised sampling plan. Those samples will be collected and analyzed for dioxins/furans.
- The meeting for stakeholders to review the final sample locations will be at 10 AM on Tuesday, January 24, 2012.

Could you please send a brief email reply to Mitchell Brouman and me indicating that the off-Site and background sampling approach described in the sampling plan, along with the above clarifications, are acceptable to EPA? If you have questions or need additional information, please contact me at your convenience.

Best Regards,

Paul
