Subject: Fw: Gainesville Meeting to Review Off-Site Soil Sampling Locations
Date: Wednesday, December 02, 2009 8:00:34 PM

Folks,

Greetings, AMEC is planning to do off-Site soil sampling in the Stephen Foster Neighborhood on 12/17-18 and is inviting folks from the regulatory agencies to review the sample locations in the field, as was previously done, prior to collecting soil samples. AMEC representatives are proposing to meet at 8 a.m. at the Koppers front gate on Thursday, December 17 to caravan and pick the precise sampling points. If you have questions about this activity, please let us know.

Thanks,

Scott Miller

Subject: Gainesville Meeting to Review Off-Site Soil Sampling Locations

Scott,

AMEC is getting ready to perform the off-Site soil sampling at the Gainesville site, and Mitchell, Paul and I thought it would be best to work with you to inform the City, County and State agencies of our plans, and invite them to review the sample locations in the field.

As was done for the first and second rounds of off-site soil sampling, I propose we meet at the front of the Koppers facility gate at 8 a.m. on Thursday December 17 to review the off-site soil sampling locations proposed in AMEC's September 29, 2009 memo. The AMEC crew will, as previously done, mark the sample locations for review in the field prior to arrival of the agencies. The sampling is scheduled to take approximately one to two days, and will begin on Thursday after the precise locations are selected. John Rice, with AMEC, will meet folks at the Koppers gate that morning.

Please let me know if you have any questions or concerns.

Thanks

Joe
