VIA EMAIL

Subject: Alachua County Soil Sampling

Dear Dr. Mousa:

Thank you again for the information you recently provided regarding environmental sampling near the Cabot Carbon/Koppers Superfund Site (the Site).

I am writing on behalf of Beazer East, Inc. (Beazer) to formally request that you provide us with any and all such information of this sort as it becomes available. For instance, please provide the laboratory data for any future residential-area soil samples taken by the County near the Site when those results are in. Kindly send such information by email to Mitchell Brouman of Beazer (Mitch.Brouman@hanson.biz) and me (gcouncil@geotransinc.com).

Thank you very much in advance.

Sincerely,

Gregory W. Council, P.E.
Principal Engineer
