RE: Cabot-Koppers Site

Dear Ms. McLaughlin:

*Amy*

I am writing to follow up with you regarding the City of Gainesville's letter from City Manager Russ Blackburn to John Mousa, Pollution Prevention Manager, Alachua County Environmental Protection Department, dated December 1, 2006, which I understand Mr. Mousa shared with you. I would like to reiterate that the City's position is that the property could be developed at a future date with mixed-use development, which may include residential components. This property is in a key location in the City, close to other redeveloping areas and revitalizing residential areas, and residential cleanup standards would clearly be the appropriate standard to apply.

The full and appropriate cleanup of this site is an issue of great importance to the health of the City of Gainesville. Thank you for your time in this matter.

Sincerely,

*Pegeen Hanrahan*

Pegeen Hanrahan  
Mayor

cc: City Commission  
Russ Blackburn, City Manager  
John Mousa, Pollution Prevention Manger, ACEPD  
Chris Bird, Director of ACEPD  
David Richardson, AGM Water Wastewater
