John,
Per our conversation today, I expect to rely on Technical Support Documents to address the issues in conflict and the Consent Decree, where necessary.

Thanks,
Scott Miller

Subject: Clarifications to ROD

Scott,

Based on the clarification from Brett Thomas and the clarified information on the clean-up standards from you and FDEP to be applied to onsite soils that you provided, do you anticipate that there will be some clarification of the sediment and onsite clean-up requirements coming soon? Are you anticipating that these clarifications will be made in the Consent Decree language?

Thanks

John Mousa
