---

Dear Stakeholders,

As a follow up to our May 29 meeting related to the soil gas investigation program at the Former Cabot Carbon site, attached are:
- A soil gas investigation work plan; and
- A draft soil gas investigation factsheet.

The soil gas work plan builds upon the soil gas outline document, which was e-mailed to you on May 3, and includes the comments you provided to that outline (ACEPD's May 7 e-mail, EPA's May 18 e-mail, and FDEP's May 18 e-mail).

The draft factsheet has been shortened and includes comments you provided during the April 23 conference call and May 29 meeting.

Please let us know if you have additional comments.
Thank you,

Laurent
