Dear Mr. Miller:

The Cabot Carbon/Koppers site has been a Superfund site since 1983. My staff and I have worked on this issue for many years. I understand and appreciate that a final remediation plan is nearing completion.

As you review the comments compiled by the experts and concerned citizens alike, please consider a full and fair review of their suggestions and take seriously their plans for alternate solutions. Each individual constituent deserves to be confident that their government is planning to implement a cleanup plan that will restore their peace of mind about the quality of life in the surrounding neighborhoods.

I am hopeful, as we move toward an equitable solution to this problem, that the best outcome for the community will be achieved.

With best regards, I am...

Sincerely,

Cliff Stearns
