Data Inventory

No samples were collected from the site during the month of August.

Upcoming Action Items

- Cabot has received comments on the Supplemental Remedial Investigation/Focused Feasibility Study (SRI/FFS) report from some stakeholders to-date. The SRI/FFS will be revised after all comments have been received.
- The results from the confirmation sediment sampling in Springstead and Hogtown Creeks has been summarized in a report, which is under internal review and expected to be issued to US EPA in mid-September.
