Re.: March 2018 Monthly Progress Report

Dear Scott:

Please find attached the March 2018 Monthly Progress Report for the Cabot portion of the Cabot/Koppers Superfund Site in Gainesville, Florida.

Please feel free to contact me with questions.

Sincerely,

**March 2018 Monthly Progress Report
Cabot Portion of Cabot/Koppers Superfund Site, Gainesville, FL**

Data Inventory

No samples were collected from the site during the month of March.

Data Reporting

Updated data tables summarizing the analytical results for all of the soil and groundwater samples collected in support of the Surficial Aquifer Remedy Optimization (SARO) Evaluation were provided to the stakeholders in early March.

Upcoming Action Items

Gradient is evaluating the results of the SARO Evaluation and potential options to optimize the surficial aquifer remedy. Geosyntec is reviewing the data collected as part of the Pre-Design Investigation (PDI) and preparing a 50% Design Report. A meeting with US EPA, FDEP, and other stakeholders to discuss the SARO evaluation results and the 50% Design findings is scheduled for May 8th.

ESI will conduct the first semi-annual monitoring event for 2018 in early May 2018.
