Re: September 14, 2018 100% Remedial Design Submittal

Dear Mr. Reiber:

Thank you for the "100% Remedial Design Report, Hawthorn Remedy, Cabot Carbon Superfund Site" dated September 21, 2018.

EPA approves the 100% Remedial Design Report with the exception of the Operation, Monitoring, and Maintenance Plan found at Section 8.5 of the document. We would like to get input from the Site stakeholders, and FDEP prior to issuing a final approval on this document.

Thank you for working with us on the Cabot Carbon remedial design. Please contact me via Internet email at [miller.scott@epa.gov](mailto:miller.scott@epa.gov) or at 404-562-9120 for additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott Miller".

Scott Miller  
Remedial Project Manager  
U.S. Environmental Protection Agency Region 4  
Superfund Division
