Subject: Re: Demolition Permit for Cabot - Koppers Superfund Site
Date: Friday, May 21, 2010 6:40:43 PM

Hello Fred,

Thank you for your inquiry. I understand that you spoke with Mitchell Brouman on this topic. Beazer East is preparing an entire package of changes to take place on-Site (including demolition) which will also include environmental protection concerns addressed along with health and safety issues.

We will make sure that you get that in hand for review and comment prior to moving forward with demolition etc. there.

Have a great weekend,

Scott Miller

Subject: Demolition Permit for Cabot - Koppers Superfund Site

Hi Scott & Kelsey:

The City's Planning and Development Department is in the process of reviewing a demolition permit for the Cabot- Koppers site. Has Beazer's submitted a Demolition plan for your review or approval. If so, the demolition plan has not been submitted to the local government or the Health Department for their review and comments. In addition, the demolition plan should including information how dust/ air borne issues will be monitored or reduced during the demolition phase. I cannot support a demoliition permit being issued until these issues are discussed or the demolition plan submitted.

Please call me

Fred
