Subject: FW: Cabot- Koppers Superfund Site - Complaint about work being done at night
Date: Thursday, December 09, 2010 1:33:53 PM

Hi Pat:

Please see the enclosed e-mail from the City of Gainesville Building Official, Tom Panico regarding working being done at night. Do you have a name or contact person that I can share with the Building Department about this issue.

Fred

Subject: RE: Cabot- Koppers Superfund Site - Complaint about work being done at night

All parties are aware of our noise ordinance and time constraints on construction. The work plan calls for work to be done between 0800 and 1600; a much more restrictive schedule. Manual clean up has been taking place from 1600 to 1700 with the project closed at 1700. I will shift my field check inspections to the end of the working day to confirm that this is taking place.

I have seen nothing to indicate evening work or the need for it and I have visited the site daily.

If I could get the contact information for the person who filed the complaint I would like to get more information. Also can you recommend someone I can contact at GPD to ask one of their patrol cars to check for activity during their regular patrols.

Thanks,

Tom

Subject: Cabot- Koppers Superfund Site - Complaint about work being done at night

Hi Doug & Tom:

FYI - I received a complaint from a citizen that work is being done at night at the Cabot- Koppers Superfund Site. Please take the appropriate measures to investigate this complaint.

Fred
