Scott,

Attached is a table containing the validated results for SS354, SS365, and DUP 32, which were collected in October 2012. Please let me or Paul know if there is any further information needed.

Thank you,

Alissa

Scott,

Beazer through AMEC sampled two offsite soil sampling locations near former Koppers site, SS364, SS364Dup and SS365, south of NW 23rd Ave. Are the validated data from these sample locations available yet? We have all data in except these two data points.

Thanks

John Mousa
