Re: ACEPD Follow-up Comments on Conference Call Discussion on July 1, 2009 related to  
Floridan IRM

Dear Scott:

The Alachua County Environmental Protection Department (ACEPD) has the following follow-up additional comments and considerations related to the July 1, 2009 Conference Call Regarding the Floridan IRM at the Koppers Portion of the Cabot/Koppers Superfund Site.

1. ACEPD supports moving forward with IRM as it is planned and the installation of additional wells downgradient of FW-12B to further evaluate Floridan aquifer contamination.
2. Since contamination in FW-22B continues to exceed Florida GTCLs in zones 3 and 4, ACEPD requests that measures be developed and taken to assure that the contamination does not migrate further to the west.

If you have any questions about these comments please contact me or Robin Hallbourg at 352-264-6800.

Sincerely,

A handwritten signature in black ink that reads "John J. Mousa".

John J. Mousa, Ph.D.  
Pollution Prevention Manager
