Subject: RE: Planned Offsite Fencing for Beazer-Former Cabot/Koppers Site
Date: Friday, December 17, 2010 3:01:46 PM

All,

The fences, gates, and signs have been installed on City rights-of-way just west of the former Koppers Site per the access agreement & work plan. The work was completed earlier today. The installation went smoothly.

Thank you,
Greg

Hello Fred, Marion, and Stu:

The Access Agreement for this work, with Beazer's signature, is attached to this email. Final agreed-to versions of Exhibit A (provided by Stu Pearson) and Exhibit B (as submitted on September 17, 2010) are included.

Please call me if you have any questions. Otherwise, please execute this agreement and send back to me by scan/email or fax. We would like to begin this work December 13.

Thank you,
Greg

I met Jim Huang this AM to review the fencing installation and give direction on interpreting the plan that has been approved. During the meeting Jim said the Access Agreement will be sent Monday 12/6/10 to the City for signature. He also advised that the start date will be 12/13/10 unless a problem arises. During the meeting Jim and his contractor discussed the methodology for gathering and providing containment for the excavation from the post foundations.

The responses received at the meeting answer a number of questions that have arisen recently. Also it might be timely for Kimberly to send out a update letter to the residents along the project next week.

I'll be out of town 12/6, 7, 8 and will be available on the 12/9 to responde to any issues.

Stu

Hi Mr. Pearson,

Greg asked me to contact you and would like to let you know that we planned to start our offsite fencing on December 6, 2010 (next Monday). I will oversee the fencing work at the site and plan to meet our subcontractor, Gerald Durrance (All Florida Enterprise, Inc.), between 9:30 and 10 am this

Friday (December 3, 2010). I hope you or one of your colleague can meet us at the site either on Friday or next Monday morning. Please contact me (cell phone number listed below) if you have any questions regarding the offsite fencing for Beazer. Thanks!

Jim
