**Re: Implementation of the Supplemental Soil and Sediment Sampling Plan  
Koppers Portion of the Cabot Carbon/Koppers, Inc. Site  
Gainesville, Florida**

Dear Ms. McLaughlin:

As indicated in our October 31, 2006 letter related to the revised *Supplemental Soil and Sediment Sampling Plan* for the Koppers Portion of the Cabot Carbon/Koppers, Inc. Site in Gainesville, Florida, Beazer is proceeding with the mobilization for that sampling effort. It is our intention to begin work at the Site on November 28, 2006. We expect that it will require approximately two weeks to complete the planned sampling at the Site.

If you should have any questions, or require additional information, please contact me at 412-208-8867.

Sincerely,

Michael Slenska, P.E.  
Environmental Manager
