John- Attached are the U of F review comments on the May 2009 draft sediment sampling report. I had delayed sending them to you pending a review by DEP- Technical Support and U of F and recommendations regarding the need for a more formal risk assessment relative to public health. I hope to get that feedback to you before the August 31, 2009 City/County Commission mtg in Gainesville. Thank you- Kelsey

The Department of Environmental Protection values your feedback as a customer. DEP Secretary Michael W. Sole is committed to continuously assessing and improving the level and quality of services provided to you. Please take a few minutes to comment on the quality of service you received. Simply click on [this link to the DEP Customer Survey](#). Thank you in advance for completing the survey.

Scott-

Attached are the UF review comments on the May 2009 draft report documenting results of Sediment Sampling by Alachua County. As we discussed earlier, I will be talking to Ligia and Dr. Roberts regarding the need for a more formal risk assessment or removal action to address contaminants in the creeks. Additional comments as appropriate will follow after my discussion with them.
